

Aobo Mac OS X Keylogger Faqs: How to set up FTP for Aobo Mac OS X Keylogger

For Aobo Mac OS X Keylogger FTP setting

Host name: your ftp ip address or domain name

User name: your ftp username

Password : your ftp password

Remote dir: the folder you want to put the logs in. Such as /logs

You must have ftp space to use the ftp setting, if you don't have ftp, you may purchase one from our partners:

Click here for more info: [Use FTP Space to store the Logs](#)
